Are you a dirty rat or a clean rat? MUD lets you play as either in this fast-paced, super fun, strategy card game. You play as a rat trying to collect enough voters to win an election. Take turns playing voter cards from your hand on a four-region "map" in front of you – your goal is to be the first one to collect 4 voters in all 4 regions.

It's House of Cards meets Itchy and Scratchy, full of sabotage, deception, and gleeful chaos. Play dirty by using RAT cards to affect the game to your advantage (stealing voters, spying, etc.). But be warned that every RAT card you play comes with a separate Scandal card. These Scandals contain random punishments and lie face down in front of you until someone plays a DIG card and exposes one! It's a game of risk and reward! It's easy enough to learn for casual gamers to have fun and contains enough strategy for serious gamers to sink their teeth into.
